---

Mike - I left you a voice message, but wanted to follow-up and make sure you have everything we have gathered over the last few days. Since many of the questions we have been receiving are better answered from the Enforcement perspective and the Emergency Response phase is winding down, Mark Peycke put **you** forward as the point person for these questions. I will forward you the information we have gathered in an attempt to answer questions so far. We need a summary document for this information and any further questions available for the Division Directors, HQ and possibly XA, as soon as possible, but hopefully by COB tomorrow.

If you have any questions, please give me a call.

Respectfully,

Bryant Smalley
